Potential Risky Areas of Landslides (as of 10 July 2026 and valid for 10-12 July 2026)

Advisory Associated with Risk Levels

- Ensure necessary facilities at shelter and arrange emergency power back up.
- Promptly broadcast early warnings in communities
- Immediately evacuate from hilly slopes or high-risk areas to designated shelters. Prioritize the evacuation of the elderly, children, disabled individuals, and pregnant women to safety.
- Take dry food, clean water, essential medicines, a flashlight, candles, matches, clothing for at least 3 days and secure important documents while going to shelter
- Maintain communication with family members, neighbors, volunteers, and the local disaster management committees.
- Keep your phone charged and a power bank ready for emergency use.
- Be aware that flash floods may occur alongside landslides, so avoid staying near rivers or streams to protect yourself from floodwater.
- Keep drains and water passages near your house clear.
- Move livestock and pets to a safe place.
- Distribute anticipatory action packages to support immediate early actions
- Follow the instructions of the local administration and disaster management committee and monitor forecasts regularly.
